RPGTALentures

RPGTALentures started by Gamewyrm and Noir my First August 2015. We like to make the game that was played for hundreds of years. We got a new staff.

We recently brought official release date! The type of genre we created and the world view we hold is, as a film. As the core game is welcome in the popular Hollywood, it has become a representative of the work to see around the world, but also too.

In RPGTALentures you are the story of the uniqueness of the character. Then the play of the history of the world is in full swing, so the game feels like a Hollywood film or a TV. As the final and main story has been in production, the way of Online System has also been improved. We would like to hope you feel more "RPGTALentures".
