I'd love to meet new people in this wonderful place Hi there, nice to meet you! I'm first time player of Games-i, not a big fan of the others, so I don't check often other users. I'm very thankful to people who help me for find new games to play (namely games-i and users like you!) I'm here to have a fun playing games, of course I learned some tips and tricks here and I'll keep you updated!Antibodies against the second intracellular loop of the glucagon receptor react with insulinoma cell lines in the absence of cell surface expression. The rat glucagon receptor contains a second intracellular loop (i2) between transmembrane domains 3 and 4. Antibodies were raised against the synthetic peptide CENPAWGVQRLVNDLSGS and specific for this peptide were used to assess the expression of the i2 region in the rat insulinoma cell line RINm5F and in the human B-cell line NCI-H325. Immunoblotting and immunofluorescence analysis indicated that, in contrast to the expression of the ligand binding domain (C terminus of intracellular domains 1, 2 and 3), the i2 region is not present at the surface of RINm5F cells, but is expressed by NCI-H325 cells. Cross-reactivity with the i2 region may interfere with the physiological effects of the ligand and thus contribute to understanding the abnormalities of islet cell function seen in insulin-secreting adenomas.Struggling developer King would like to sell out at the end of the year. Enjoy the game! Hey I'm really sorry about the last update. I was really busy with college things and I have to do a thesis for my bachelor's degree. But now I'm back into school again and I'm working on the Visual Novel as well. I had to cut parts out to make it shorter to read. But there are still many things to do. I'm also making a new Acaciabar games section. I hope you don't mind. There are plans to add other types of games as well (e.g. Action, RPG, Platform, Simulation, etc.). And I also wanted to show you guys some of the new content I have in the works. Update: The semester has ended! I have been browsing through blogs and stuff on the internet as well. It's cool to see that other people are busy with college or work as well and still making games. I also got a really nice letter from an administrative assistant at my department (The other answer was very generic, but very nice and polite). I'm really glad that the blog turned out so great! And I have to stop writing all of these now. As I still have work to do, I hope you don't mind if I skip a couple of days or so. It's not every day that I receive a message from the admin person at my

department to this extent. Hello! I'm Ryuto (again). I'm actually not quite Ryuto anymore. I'm Ryuto Shinkawa now. =D Now I'm the third year of college!I'
