It was very easy to rip my entire music library to my iPod so I could use it when I travel. I had to screw up my iTunes because my old iPod died and I lost all my music but I'm going to spend the last few days finishing ripping my library to my new iPod. My first music ripper, I highly recommend it. 0 of 0 people found this review helpful Dr. John D. Walker

It doesn't make my skin look like a tacky mess, and it stays put with the help of a tapered sponge. Best of all, the color isn't too light or too dark, and it doesn't settle into pores. On my red/pink-toned skin, I get a natural-looking, barely-there color, and I don't need to dab or pat my product. It blends well with the skin and covers imperfections without giving me a "concealer face." The only thing is, the color is pretty sheer for my skin tone, and I think the color looks white on me.
